

Team SAFE-T / Hilary Duff Public Service Announcement

Script for School Public Address System Announcements

Good morning. This is an important message for teachers, students and their families.

An emergency can happen anytime. Anywhere. Being prepared can mean the difference between life and death.

If you have a family disaster plan, practice it! Meet your family members at a designated meeting spot in case of an emergency; be prepared in the event of a disaster and know the proper evacuation procedures.

Team SAFE-T will teach skills needed to help ourselves and our families respond to community emergencies. You'll learn these skills during our school's Team SAFE-T training.

For more information, talk with your teacher or visit the Team SAFE-T web site at www.TeamSAFE-T.org.

Join the TEAM, because we all need to "Be Smart, Be Responsible, Be Prepared, and Be Ready!"
